PROJECTS

• Real-Time Facial Emotion Detection

OpenCV, TensorFlow, Keras.

Built a real-time facial emotion detection system using CNN on the FER-2013 dataset. Deployed with a Streamlit web app.

GitHub: github.com/AjayShirke1075/emotion-face-detector

• Freelancer – Business Website

PHTML, CSS, Netlify-Mobile-First Design

Built and deployed a responsive business website using HTML and CSS.

Optimized UI for mobile users and integrated direct contact features.

Live Project: <https://shri-suppliers.netlify.app/>

• Budget Tracker App with AI Forecasting

Python, Streamlit, SQLite.

Developed a personal finance web app featuring secure login, income/expense tracking, AI-based expense forecasting, interactive charts (Plotly), dark mode, and Excel export.
